BIOGRAPHY:

Lynn Brewer is a former Enron executive and author of *Confessions of an Enron Executive: A Whistleblower Story*, a riveting account of her career at Enron and her decision to blow the whistle.

Described by the *Economist* as the real whistleblower, she is the last to meet with former CEO Ken Lay -- just two weeks before his death.

In her nearly three years at Enron, she was responsible for risk management in energy operations, the e-commerce initiatives for Enron's water subsidiary, power trading in the California markets at the height of the crises, and oversaw competitive intelligence for Enron Broadband Services.

Prior to joining the energy giant, Lynn worked in forensic accounting and spent 18 years as a legal professional in private practice. Today she is the Founder and CEO of The Integrity Institute, Inc., which independently assesses and certifies corporate integrity at the request of organizations for the benefit of their stakeholders.
